LETTER OF TRANSMITTAL.

U. S. DEPARTMENT OF AGRICULTURE,
DIVISION OF FOREIGN MARKETS,
Washington, D. C., March 12, 1903.

SIR: I have the honor to transmit herewith the manuscript of a report showing the tariff rates and regulations enforced by the various foreign countries as regards the importation of meat and meat products, and to recommend its publication as Bulletin No. 35 of this Division.

Very respectfully,

FRANK H. HITCHCOCK,
Chief.

Hon. JAMES WILSON,
Secretary of Agriculture.

FOREIGN IMPORT TARIFFS ON MEAT AND MEAT PRODUCTS, 1903.

INTRODUCTION.

Frequent inquiries are received regarding the duties levied by foreign countries on imported products of agriculture. To meet the demand for information of this nature the preparation of a series of tariff reports has been undertaken, of which the present bulletin, relating to meat and meat products, is the first. Two similar reports, one dealing with grain and grain products, and the other with fruits and nuts, are also ready for publication and will be issued in the near future.

The information presented has been derived wherever practicable from the original tariff laws of the several countries concerned, these laws having been procured in many instances through the courtesy of the United States consular officers. When the original laws could not be obtained recourse has been had to the translations issued by the International Customs Tariff Bureau of Brussels, Belgium, and to the tariff notices appearing in such authoritative publications as the British Board of Trade Journal, "Das Deutsche Handelsarchiv" and "Das Handelsmuseum." As far as possible the rates have been verified by a comparison with the actual amounts of duty collected upon the various articles as reported in the official trade returns of the several countries. Tariffs published originally in other languages have been translated into English, and the various denominations of money, weight, and measure have in all instances been converted into their equivalents in United States denominations.

UNITS OF VALUE AND QUANTITY.

The equivalents in United States money of the various items of value, and in United States denominations of the foreign weights and measures, used in the tariff schedules of the several countries, are given on pages 2 and 3 of this bulletin.

ARRANGEMENT OF TARIFFS.

The report embraces 163 tariffs, including those of the United States and the Philippine Islands, which have been added for purposes of comparison. As arranged in the report, the various nations for which tariff information is presented appear in alphabetical order, but dependencies follow alphabetically the respective countries to which they are subject.

While care has been taken to include all amendments of which information could be obtained up to the date of the report, it is to be borne in mind that tariff schedules are being almost constantly modified to meet changing trade conditions throughout the world, and for this reason the rates here presented are to be accepted as relating only to the dates given.

The several tariffs, so far as they apply to meat and meat products, are as follows:
